------	-----------------------------------

LICENSURE

1991- present	Florida BP0992570
---------------	-------------------

PUBLICATIONS AND RESEARCH

Dr. Mark Pinsky is sought-out within the Aesthetic research community for his analytic and aesthetic approach to new methods and new products. His experience allows him to provide feedback encompassing a product's application and use as well as its ability to deliver on the desired aesthetic result. He has been an FDA Clinical Investigator on a variety of new product trials since the 1992 through the current launch of the "gummy bear" breast implant.
